## Introduction

This bibliography provides some of the major references relating to medical history, technology and biography of King County. Much of the reference information relating to specific medical themes, specializations and record series may be found in the works cited here. Additional information may be available in landmark nominations and general works on regional and community history. Several research collections exist in the area, including the Providence Archives and the University of Washington Libraries collections, which includes the K. K. Sherwood Papers, among others.

Papers in this series are maintained in electronic format. They are revised and updated periodically as new information becomes available.
