2019-2020 Heritage Sustained Support Narrative Questions

Audience

Based on any available information you have, describe your organization's current audience. Consider visitors, users, content producers, collaborators, supporters, volunteers, etc. What have you learned about your organization's surrounding community in the past two years— how has your organization been influenced by this information?

Programming and Operations

Over the past two years, what King County heritage programming (i.e., exhibits, public programs, educational initiatives, outreach efforts) are you most proud of and why? How has this programming advanced your mission or helped achieve your organization's strategic goals in the last two years? What efforts, internal or external, has your organization undertaken to increase access and participation of diverse visitors, membership, staff, board, stakeholders, and/or content producers?

Planning and Implementation

Describe your organization's 3-5 most important strategic priorities over the next two years (2019-2020) and how they were determined. How will you fund these priorities and how will they be executed and evaluated?
