Subject: Puget Sound Electric Railway interurban car 523

Richard -

It was great talking with you about your Puget Sound Electric Railway interurban car 523 assessment and rehabilitation. Sounds like an interesting project.

I would be delighted to do an assessment of the wooden car body, excluding mechanical systems. I would expect to charge \$3,500, plus expenses - transportation (air and rental car), meals and accommodation. I estimate those expenses for airfare, car rental, hotel and meals would be around \$1,500.

Regards,

Kyle K Wyatt
